

As elegant as wood

The Egger Decorative Collection of customised doors is as elegant as wood, but without the heavy price tag of real wood. Choose from finish variations such as oak, elm, larch, and of course pine, to give your home a fresh new look.

They are ideal for cupboards, wardrobes and wall panelling.

Visit www.dezignadoor.co.za for more information about this product.

HOLISTIC BEAUTY

With an impressive background in nursing and medical equipment, and wide experience in aesthetic practices, Nicolette Wepener and Turid Stacey were more than ready to open their new centre in Dainfern, Sandton, and to help their clients onto the path to beauty, youthfulness, healing and a rewarding life. 'Beauty is not just skin deep – it includes all aspects of your life: body, mind and soul. Therefore our approach is holistic, so we can bring about positive change and improvement, on all levels, for our clients,' says Nicolette. At Nix & Tee Wellness and Aesthetics among the procedures offered are mesotherapy, microneedling, redermatisation and body contouring, as well as the services of a leading plastic surgeon and an aesthetic practitioner for procedures such as the administering of fillers, botox and threading. The equipment that they use, especially for body contouring and procedures to get rid of stubborn fat, makes use of the newest technology and is approved by the FDA. In particular,

the BTL Emsella chair (read more on page 87), which helps with problems like an ageing vagina and pelvic floor, can be life-changing. The centre focuses strongly on detoxification and lymph drainage, which form part of a personalised programme for individual clients. For more information, look for 'Nix and Tee' on Facebook.
